Name: Asphalt Low Shoe	Code: 25083	Special Protection Series
-------------------------------	--------------------	----------------------------------

Description

Designed for thermal insulation, it is essential for asphaltting operations; manufactured with nitrile rubber and insulation material, it protects against inductive heat coming from fresh asphalt.

It features a 200 Joule composite toecap and 4mm Zero Penetration composite midsole. Full grain leather upper. Nitrile rubber outsole heat resistant up to 300°C. Foam rubber coated leather ankle. Antistatic Fustatic removable insole. Front and rear leather lining.

This footwear belongs to Special Protection Series, which guarantees high level of performance and quality; also due to the completeness of its range it ensures proper protection for any kind of danger, even the most extreme.

The product is designed and manufactured to comply with the essential health and safety requirements of Directive 89/686/EEC, and to conform to the requirements of European standards EN ISO 20345. It is classified as PPE Cat. II.
