|---|--------------------|-----------------------|
| Name: Firefighter Nomex Overtrousers | Code: 33223 | Fire Resistant |
|---|--------------------|-----------------------|

Description

Overtrousers in 4-layer aramid fabric. It features high bib, adjustable elastic shoulder straps, elastic waistband, two side welt pockets with Velcro, two functional pockets with flaps and Velcro on the legs, removable knee protection, ankle zips for an easy use with boots, fluorescent and reflective material inserts.

Multiple features: the outer layer in anti-static Nomex Delta features flame resistance and high mechanical and abrasion resistance; the inner layer in Airtex microporous membrane is waterproof and breathable. The inner padding in aramid wool provides insulation from external convective heat; the inner layer in quilted lining ensures optimum breathability.

The overtrousers shall be worn in combination with the Firefighter jacket. Performance requirements in compliance with EN 469 are referring to the combination of article 33220 and 33223.

The product is designed and manufactured to comply with the requirements of Directive 89/686/EEC. It is classified as PPE Cat. III.
