

Name: Polytech Trousers

Code: 35206

Polytech New Generation

Description

Trousers made of a technical fabric composed by 75% cotton, 24% polyester, 1% antistatic fibre, weight 290 g/m². It features a fly with zip and button, two front welt pockets, rear pocket with flap and Velcro, two three-dimensional functional pockets with flaps and Velcro on the legs.

The trousers shall be worn with the jacket.

- The Polytech New Generation series is made with a multi-purpose fabric that combines antistatic properties with resistance to flames, heat and chemical products.
- Thanks to its features it is multi-purpose, practical and resistant, breathable and comfortable.

In combination with the trousers it is possible to wear our under garments: Carboflame undershirt art. 35285 and Carboflame underpants art. 35286, meeting the point A.2 of IEC 61482-2 which is stating that the electric arc protective clothing shall be used with under garments made of materials that would not melt with the arc.

The product is designed and manufactured to comply with the requirements of Directive 89/686/EEC.
It is classified as PPE Cat. III.
