

**Name: Microlines Poly Jacket**

**Code: 35215**

**Microlines**

### Description

Multi-norm jacket, breathable and waterproof, with antistatic, flame retardant, acid resistant and high visibility properties; External fabric in 99% polyester and 1% conductive fibre, 100% cotton inner lining, padding with flame retardant treatment fastened to the outer layer through a zip. With concealed 2-way zipper closure with double flap, rollaway lined hood, drawstring waistband, badge holder on the chest, radio holder and two three-dimensional water resistant pockets, adjustable cuffs with velcro, three inner pockets, pen holder and two pockets in the padding, reflective band on the shoulders and double band around the chest and sleeves.

The jacket shall be worn in combination with the trousers.

- The Microlines Poly series, which is Fire retardant and antistatic, responds to the requirements of high visibility and resistance to chemical substances; it protects the operator from accidental contact with minor flames.
- Also protects against low temperatures thanks to the fabric structure and its padding.
- Microlines Poly: new protection from electric arc.

In combination with the jacket it is possible to wear our under garments: Carboflame undershirt art. 35285 and Carboflame underpants art. 35286, meeting the point A.2 of IEC 61482-2 which is stating that the electric arc protective clothing shall be used with under garments made of materials that would not melt with the arc.

The product is designed and manufactured according to the Directive 89/686/EEC.  
It is classified as PPE Cat.II.

Category <b>II</b>	Colours Hi-Vis yellow and blue	Available Sizes S-3XL
Quantity/Carton <b>5</b>	Important Information Keep in a cool dry place, far from heat sources and direct light. Make sure the garment is in good condition, undamaged and clean before use.
