Name: Heavy Carboflame Coverall Code: 35284B Heavy Carboflame

Description

Padded coverall, outer layer in 87% cotton, 12% nylon and 1% carbon fibre, 255 g/m² and padding in 100% aramid, 150 g/m². With high collar and straight sleeves, concealed zipper closure with Velcro, chest pockets with zipper and flap, ruler pocket with flap and Velcro; detachable padded hood, elastic waistband, gas detector holder, reflective bands on the hood, shoulders, legs and arms.

- It is the ultimate range for protection in environments exposed to extreme weather.
- Flame retardant and antistatic, it is well-suited for protecting the operator from accidental contact with minor flames, molten metal splashes, low levels of convective and radiant heat.
- Protects against accidental short-term electrical contact.
- It protects against low temperatures thanks to the structure of the fabric and to its padding.

In combination with the coverall, is it possible to wear our under garments: Carboflame undershirt art. 35285 and Carboflame underpants art. 35286, meeting the point A.2 of IEC 61482-2 which is stating that the electric arc protective clothing shall be used with under garments made of materials that would not melt with the arc.

The product is designed and manufactured according to the Directive 89/686/EEC.

It is classified as PPE Cat.III.
