Name: Sokoi 1 Harness	Code: 55311	Sokoi Harnesses
------------------------------	--------------------	------------------------

Description

The harness is made in polyester and it features:

- 1 dorsal "D" attachment for the fall arrest system.
- Adjustable chest belt and leg loops.
- Chest strap holding shoulder straps.
- Wider comfortable straps for extended time use.

Sokoi harnesses are in polyester, which has lower elongation properties than other materials. The harness does not stretch dangerously when subject to a fall, therefore, the worker does not risk slipping out of the harness.

Sokoi harnesses may be equipped, upon request, with a Tell-Tale fall indicator, positioned, through the seams, on the back of the shoulder; it detaches itself in the event of a fall. The harness must be immediately replaced after a fall.

Technical Specifications:

- Dorsal "D" Attachment for the fall arrest system.
- "A" or "A/2" label: shows the attachment points of the fall arrest system.
- Labels: all the harnesses labels and markings are in an inner strong polyethylene wrapping to prevent the marking from fading.
- Sliders: the ends of the shoulders straps are locked by plastic lips.
- All the textile loops are covered with a fabric reinforcement.

The product is designed and manufactured to comply with the essential health and safety requirements of Directive 89/686/EEC, and to conform to the requirements of EN 361.
It is classified as PPE Cat. III.

Category III	Colours Yellow - Blue	Available Sizes Unica
Quantity/Carton 1	Important Information Read carefully the user sheet included. Make sure the item is in good condition, undamaged before use. Once you become aware of a damage, you should immediately replace it.	Recommended for Suitable for work at height.
Dexterity	EC Standards EN 361 CE	Storage and cleaning Keep in a dry place, far from heat sources.
