Name: Sokoi 3 Harness	Code: 55313	Sokoi Harnesses
------------------------------	--------------------	------------------------

Description

The harness is made in polyester and it features:

- 2 chest "D" attachments and 1 dorsal "D" attachment for the fall arrest system.
- Adjustable shoulder straps and leg loops.
- Sliding frontal plate for strap adjustment.
- Totally adjustable harness.
- Sitting waistbelt designed for maximum comfort of the worker.

Sokoi harnesses are in polyester, which has lower elongation properties than other materials. The harness does not stretch dangerously when subject to a fall, therefore, the worker does not risk slipping out of the harness.

Sokoi harnesses may be equipped, upon request, with a Tell-Tale fall indicator, positioned, through the seams, on the back of the shoulder; it detaches itself in the event of a fall. The harness must be immediately replaced after a fall.

Technical Specifications:

- Dorsal "D" Attachment for the fall arrest system.
- "A" or "A/2" label: shows the attachment points of the fall arrest system.
- Labels: all the harnesses labels and markings are in an inner strong polyethylene wrapping to prevent the marking from fading.
- Sliders: the ends of the shoulders straps are locked by plastic lips.
- All the textile loops are covered with a fabric reinforcement.

The product is designed and manufactured to comply with the essential health and safety requirements of Directive 89/686/EEC, and to conform to the requirements of EN 361.

It is classified as PPE Cat. III.

Category III	Colours Yellow - Blue	Available Sizes Unica
