TECHNICAL SHEET

Name: Wall Mounted Shower

Code: 81133

Emergency Showers

Description

Shower with showerhead complete with manual closure valve. Operated by rigid pull triangular handle. Wall mounted.
Sprinkler: 10 inches diameter that ensures the water flow.
Shower valve: brass plated, 1 inch (PSI). The valve is activated by a rigid pull handle. The unit is connected to a source of flowing water, able to deliver the flow when all the components are operated simultaneously. It can provide 76 liters of water per minute. Wide area of water flow: 50 cm at the center and 150 cm at the extremities. The valve is activated within one second. Easily localizable, accessible activator and not higher than 175 cm. The eyewash provides 11.5 liters of water per minute. ABS bowl. Pipes and accessories in galvanized steel, pipes with anticorrosive polyethylene cover.
